

Film Wisconsin: Film Production Company Investment Tax Credit Application

Application Procedures and Program Overview

The State of Wisconsin provides a tax credit of up to 30% to attract and expand film production in Wisconsin.

For a project to become eligible, an applicant applies for a Tax Credit Accreditation Letter from Film Wisconsin. Upon completion of the project, the applicant commissions a verification of actual expenses to be prepared by an independent certified public accountant (CPA) licensed in Wisconsin; the CPA will verify the amount of eligible production costs related to the project. The applicant then provides the report to Film Wisconsin to determine the final credit amount, and a Tax Credit Certificate is issued. The recipient of a Tax Credit Certificate may use it or may sell or transfer the credit to another taxpayer, after approval by the Wisconsin Department of Revenue (WDOR).

Subject to the limitations provided in this subsection, for taxable years beginning after December 31, 2025, a claimant may claim as a credit against the tax imposed under s. 71.02, up to the amount of the taxes, for the first three taxable years that the claimant is doing business in this state as a film production company, an amount that is equal to 30% of the following that the claimant paid in the taxable year to establish a film production company in this state: 1. The purchase price of depreciable, tangible personal property. 2. The amount expended to acquire, construct, rehabilitate, remodel or repair real property.

All applications are received electronically. Please note that you cannot save your application, and it will not be filed until you click "Submit."
